

Baseball NSW Response to Calypso Travel Liquidation Impact

Sydney, NSW – 31 May 2024

Baseball NSW would like to provide further information and clarity to our community and stakeholders regarding the recent liquidation of Calypso Travel.

Firstly, we acknowledge the recent SMH article regarding the unfortunate liquidation of Calypso Travel and its impact on our organisation and members. We can confirm that the amount in question related to our dealings with Calypso Travel is less than \$200,000.

Baseball NSW has been actively working with affected families to address concerns and has fully refunded all monies received for the planned trip to the USA. We are exploring all possible avenues to minimise the impact on our affected members and including alternative tour opportunities where feasible.

Moreover, Baseball NSW is collaborating closely with the appointed Administrator and our insurance company to navigate this situation.

Despite the setback caused by Calypso Travel, we want to reassure our community that Baseball NSW has sufficient balance sheet strength to continue its operations without interruption, allowing us to uphold our commitments to our players, staff, and stakeholders.

We appreciate the ongoing support and understanding from our community as we work through these challenges. We will continue to provide further updates as information becomes available.
